

## (5 minute) CONSUMER-LED CHALLENGE:

This simple test is designed to help you identify the right people and businesses to help you on your SDA journey. By asking these questions of providers you can find out if they have a consumer-led approach.

If they aren't up to scratch, why settle for second best? Exercise choice and control and move your business to someone who will do the best for you.

**(Note to businesses - use the same consumer-led challenge questions on your own business to identify areas where you can sharpen up your offering)**
